

As most of you have seen the VMS boards that have been indicating a pending Wharf Rd & Sparrows Point Blvd closure/detour we wanted to provide a quick update to the operations teams here at Tradepoint. Please find the attached traffic notices that impact the flow of traffic coming into the site.

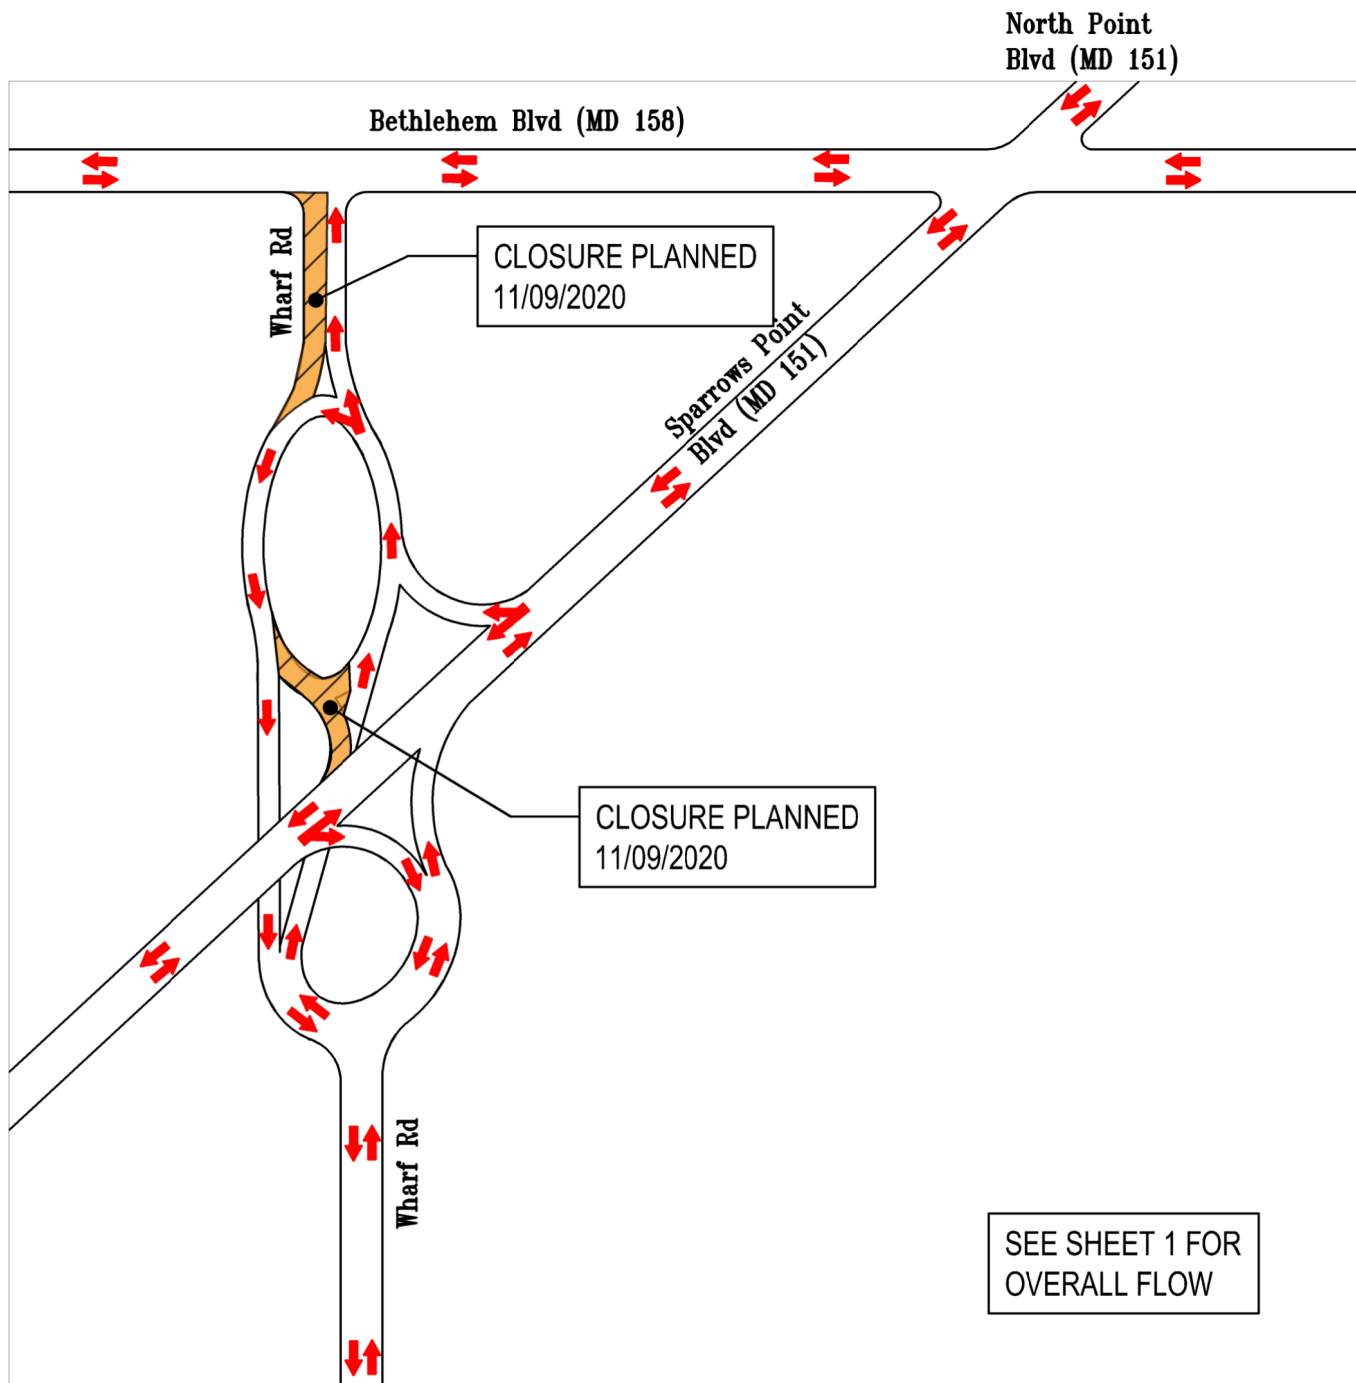

- SHA bridge work will close the north bound wharf rd. as indicated on the map. Southern Wharf rd access from north point to B-gate and the new scales will remain in place.
- East/West extension of Tradepoint Ave. is completed & open for additional ingress/egress for fulfillment centers.
- Sparrows Point Blvd. lane shifts will be from Tradepoint ave. north through the SHA bridge project.
- Sparrows Point Blvd closure will ONLY be south of Tradepoint Avenue to accommodate realignment of the roadway.

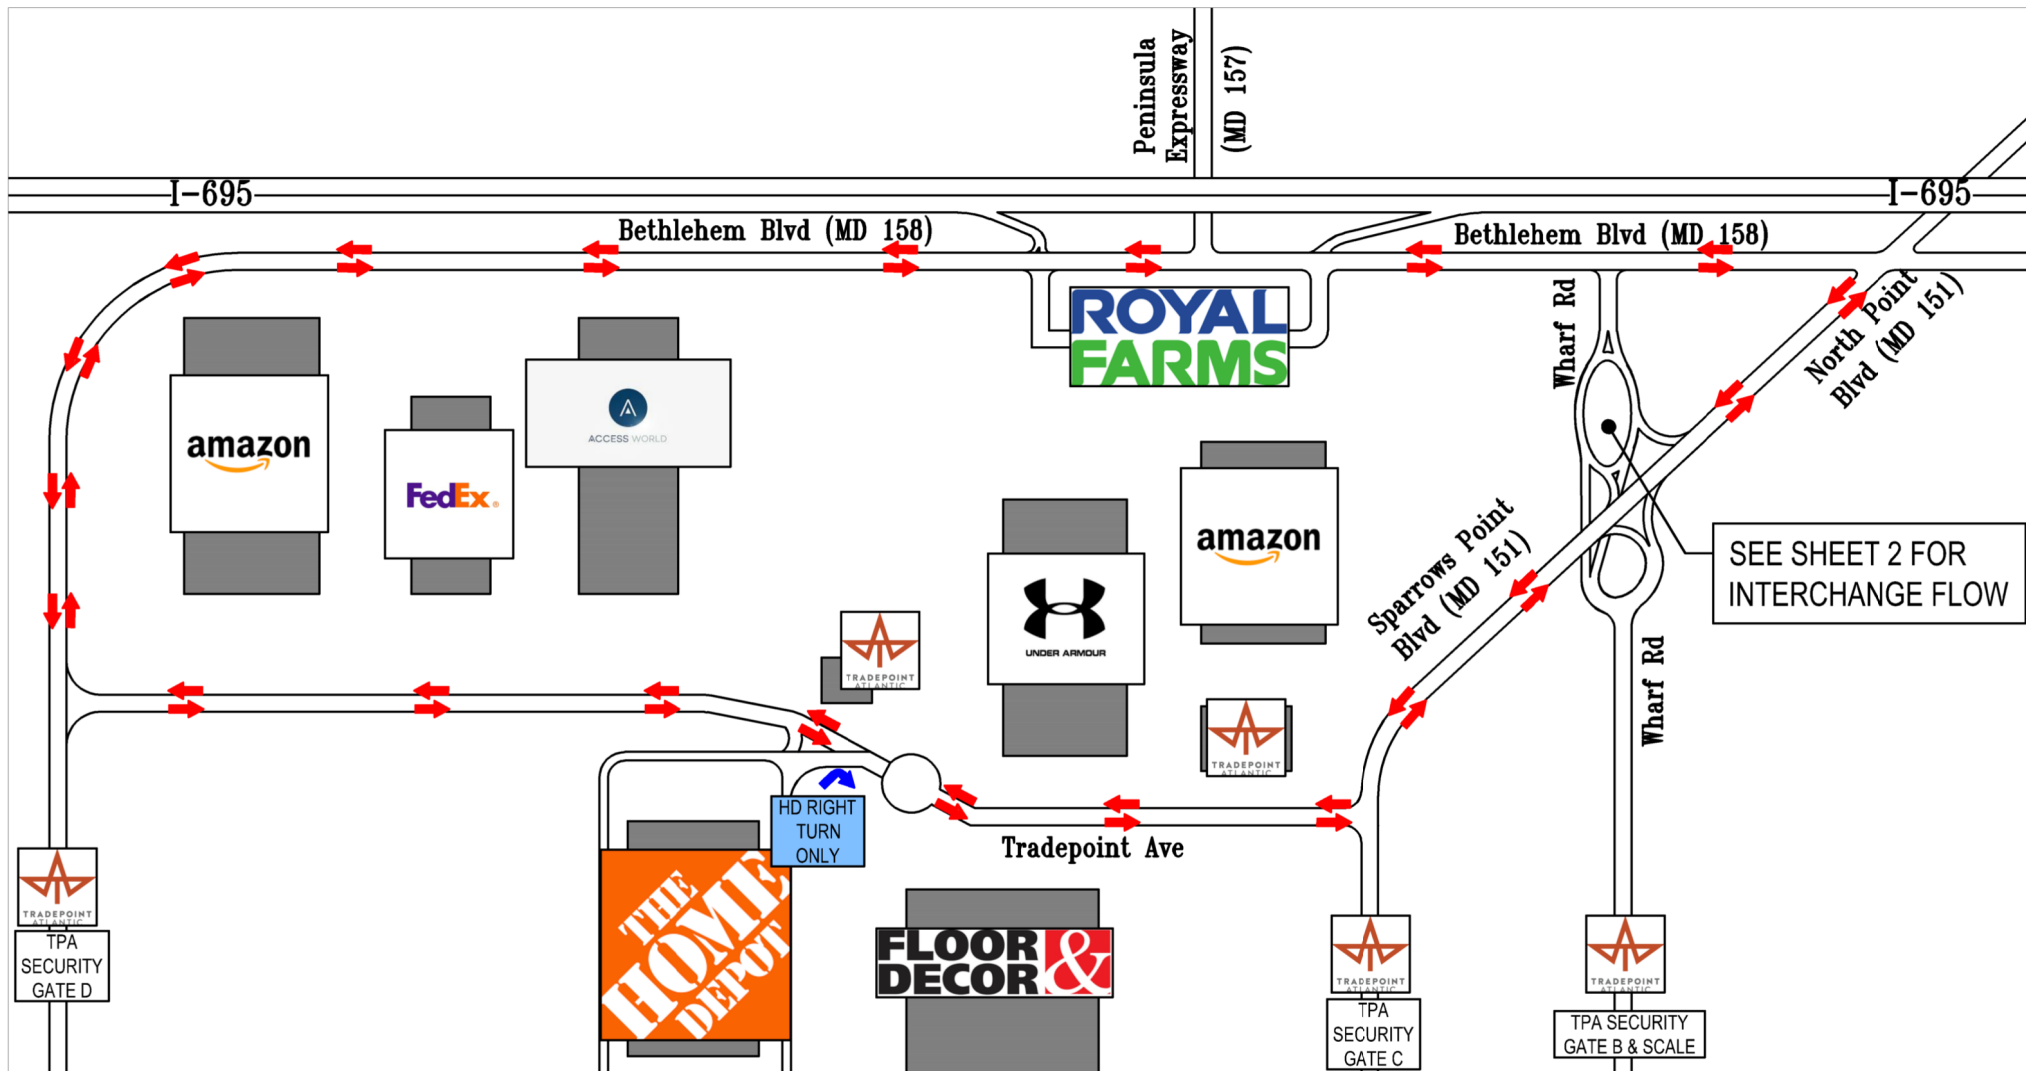

MDOT/MTA is working through potential minor delays with the LocalLink 63 but don't anticipate any interruption of service.

Please don't hesitate to reach out with any additional questions or concerns.
