

Environmental Project Manager

TradePoint Atlantic, a 3,300-acre multimodal global logistics center is seeking an Environmental Project Manager to help coordinate the environmental remediation activities at Sparrows Point, MD. The position will require 7-10 years' experience and will be responsible for tracking remediation activities, contractor oversight, material acquisition, implementing permits, and supporting development projects.

Roles:

- Review environmental assessment and work plan reports.
- Monitor remediation system operation, compliance, and maintenance.
- Manage remediation system material and chemical acquisition.
- Manage subcontractors.
- Preparation of remedial cost estimates for potential and known environmental liabilities.
- Evaluate data and prepare written proposals, cost estimates, and technical reports.
- Prepare budget estimates and work-scopes, primarily for engineering tasks.
- Oversee remediation conducted under the voluntary cleanup program in Maryland.

Basic Qualifications:

- BA or BS degree in Engineering, Geology, or Environmental Science required
- Experience with managing environmental investigations and remediation projects at complex CERCLA or RCRA sites and MDE Voluntary Cleanup Program sites
- Field work experience in civil/environmental engineering, construction supervision a plus
- Experience managing project budgets
- Ability to manage multiple projects
- Excellent communication skills, including both oral and written
- Good working knowledge of word-processing and integrated software applications, including MS Word, Excel, and PowerPoint
- Working familiarity with CERCLA, RCRA, TSCA, CAA, CWA, and NEPA.
