Position: Environmental Compliance Manager

TradePoint Atlantic, LLC. is seeking an Environmental Compliance Manager to join its environmental team to work in its corporate headquarters located in Sparrows Point, MD. The position will report to the SVP - Environment. The position will work extensively with on-site operations, internal real estate development team, local government officials, contractors, and sub-contractors.

Job Summary:

The Environmental Compliance Manager (ECM) will provide environmental support to remediation and construction projects. The ECM will support remediation and operational processes to ensure regulatory compliance with land, air, soil, and water regulations.

Supervisory Responsibilities:

- Some consultants oversight.

Duties/Responsibilities:

- Experience with evaluating/maintaining environmental regulatory compliance in industrial settings.
- Review environmental assessment and work plan reports.
- Support permit compliance programs, including NPDES Permit and SOP compliance programs.
- Arrange and track the disposal of hazardous, solid, and liquid wastes.
- Prepare periodic regulatory compliance reports as required.
- Assist in the preparation of permit applications as required.
- Interact with regulatory representatives as required in a professional manner.
- Submit applications for new and revised permits.
- Prepare, review, and update environmental investigation reports.
- Obtain, update, and maintain plans, permits, and standard operating procedures.
- Ensure compliance with environmental regulations.

Required Skills/Abilities:

- Extensive knowledge of environmental regulations and policies.
- Excellent analytical and problem-solving skills.
- Extensive applied knowledge of environmental engineering science.
- Excellent organizational skills and attention to detail.
- Proficient in technology and equipment used in environmental inspections.
- Proficient in Microsoft Office Suite or related software.

Position: Environmental Compliance Manager

Education and Experience:

- Bachelor's degree in engineering, Environmental Science, Environmental Studies, Environmental Policy, Earth Science, or a related discipline.
- 10 years of experience and working knowledge of federal, state, and local environmental regulations, and related experience performing engineering work in pollution control, waste remediation, resource conservation, environmental protection, public health and safety, or related areas.

Physical Requirements:

- Physically able to conduct inspections and carry equipment used for inspections.
- Must be able to lift up to 25 pounds at times.
- Must be able to traverse various types of terrain within 3300-acre property.
